AODA Train the Trainer

This intensive **one day** workshop will show you how to accommodate your customers in your work and surrounding environment. The hands on exercises will ensure your compliance with the legislation that came into effect in 2012 for Private Service Industries under the Accessibility for Ontarians with Disabilities Act and other legislations.

The Train the Trainer course entails 1/2 of the day learning about adult facilitation skills and 1/4 of the day will be addressing policy, program and documentation for your workplace and 1/4 of the day applying the knowledge learned to developing an employee training program for the participant's workplace. It is very much a crash course and could easily be a 3 day course to get the full benefit of the application. If this is something you are interested in – a 3 day course – please let us know and if we have enough interest we will plan a 3 day back to back workshop for the AODA Customer Service and then again for each of the Standards under the Act as they apply.
